

Sayer Hi 35

The Sayer Hi 35 was designed by Jon Sayer to provide a strong, fast, affordable, offshore cruiser. Suiting individuals and club sailors who want an easy handling cruising boat, plus high performance for off shore racing.

LOA: 10.66m
BEAM: 3.26m
LWL: 9.67m
DRAFT: 1.98m
DISPL: 4700kg -LOADED

Price: \$250,000 plus sails

FAST CRUISER DESIGNED FOR STABILITY OFFSHORE

- Stability offshore
- Increased performance in light winds.
- Better performance with a lower centre of gravity
- Strong aluminium hull and composite deck for insulation, finish and lower CO for performance
- Composite deck
- Easy sail handling with fractional rig & non overlap headsails
- High performance foils using spade rudder enables tight manoeuvring & pilot control.
- Optional fixed or retractable keel
- Large sail plan though easily controlled fractional rig with no runners
- Increased performance in light breezes not seen in cruising yachts
- Medium draft for performance though shallow enough for cruising with concentrated keel weight in bulb for lower centre of gravity

The Sayer Hi 35 can be purchased as hull & deck only or fitted out to personal requirements. For further information contact us.
